

Granular Potash (min. 70%)

End - uses

Ingredient of fertilizer mix and de-icers

Oil & Gas - ingredient of solutions for well drilling and well maintenance and killing

Metallurgy - flux for scrap remelting or flux ingredient

Chemical processing and other

Form

Granules of molten material up to 3 mm size

Packing

Big - bags, polymer water-proof bags with weight from 20 kg to 50 kg

Specification

Name	Content in %
KCL, min	70
NaCL, min	14
MgCL ₂ , max	10
Residue insoluble into water, max	0.5
Granule size: from 0.5 to 3 mm, min, by weight	95
